Camp is located at the end of a deep, four mile bay, where fast flowing Grease River with its many miles of rapid water, winding through rugged tree clad hills, tumbles out into mighty Lake Athabasca with its 3050 sq. miles of fishing waters, that lies within the 60th parallel, which is fast becoming known as Saskatchewan's Last Fishing Frontier, with its many rivers and clear cold lake waters.

For your fishing pleasure we can offer the fan finned Arctic Grayling, large Northern Pike, Walleyes, Lake Trout, and for a new twist in fishing, fly fishing for white fish.

In early September we have a few hot spots, casting only for Lake Trout and practically every cast is rewarded with a trout.
